Trail Ratings

Easy
 Can be travelled in 2wd under most conditions. Rain or snow may make 4wd necessary. Most stock vehicles with all terrain tires and open differentials can negotiate. No lockers or winch necessary.

Moderate
 Both mechanical and body damage are possible. Aggressive tires, locking differentials, winch, and roll cage recommended.

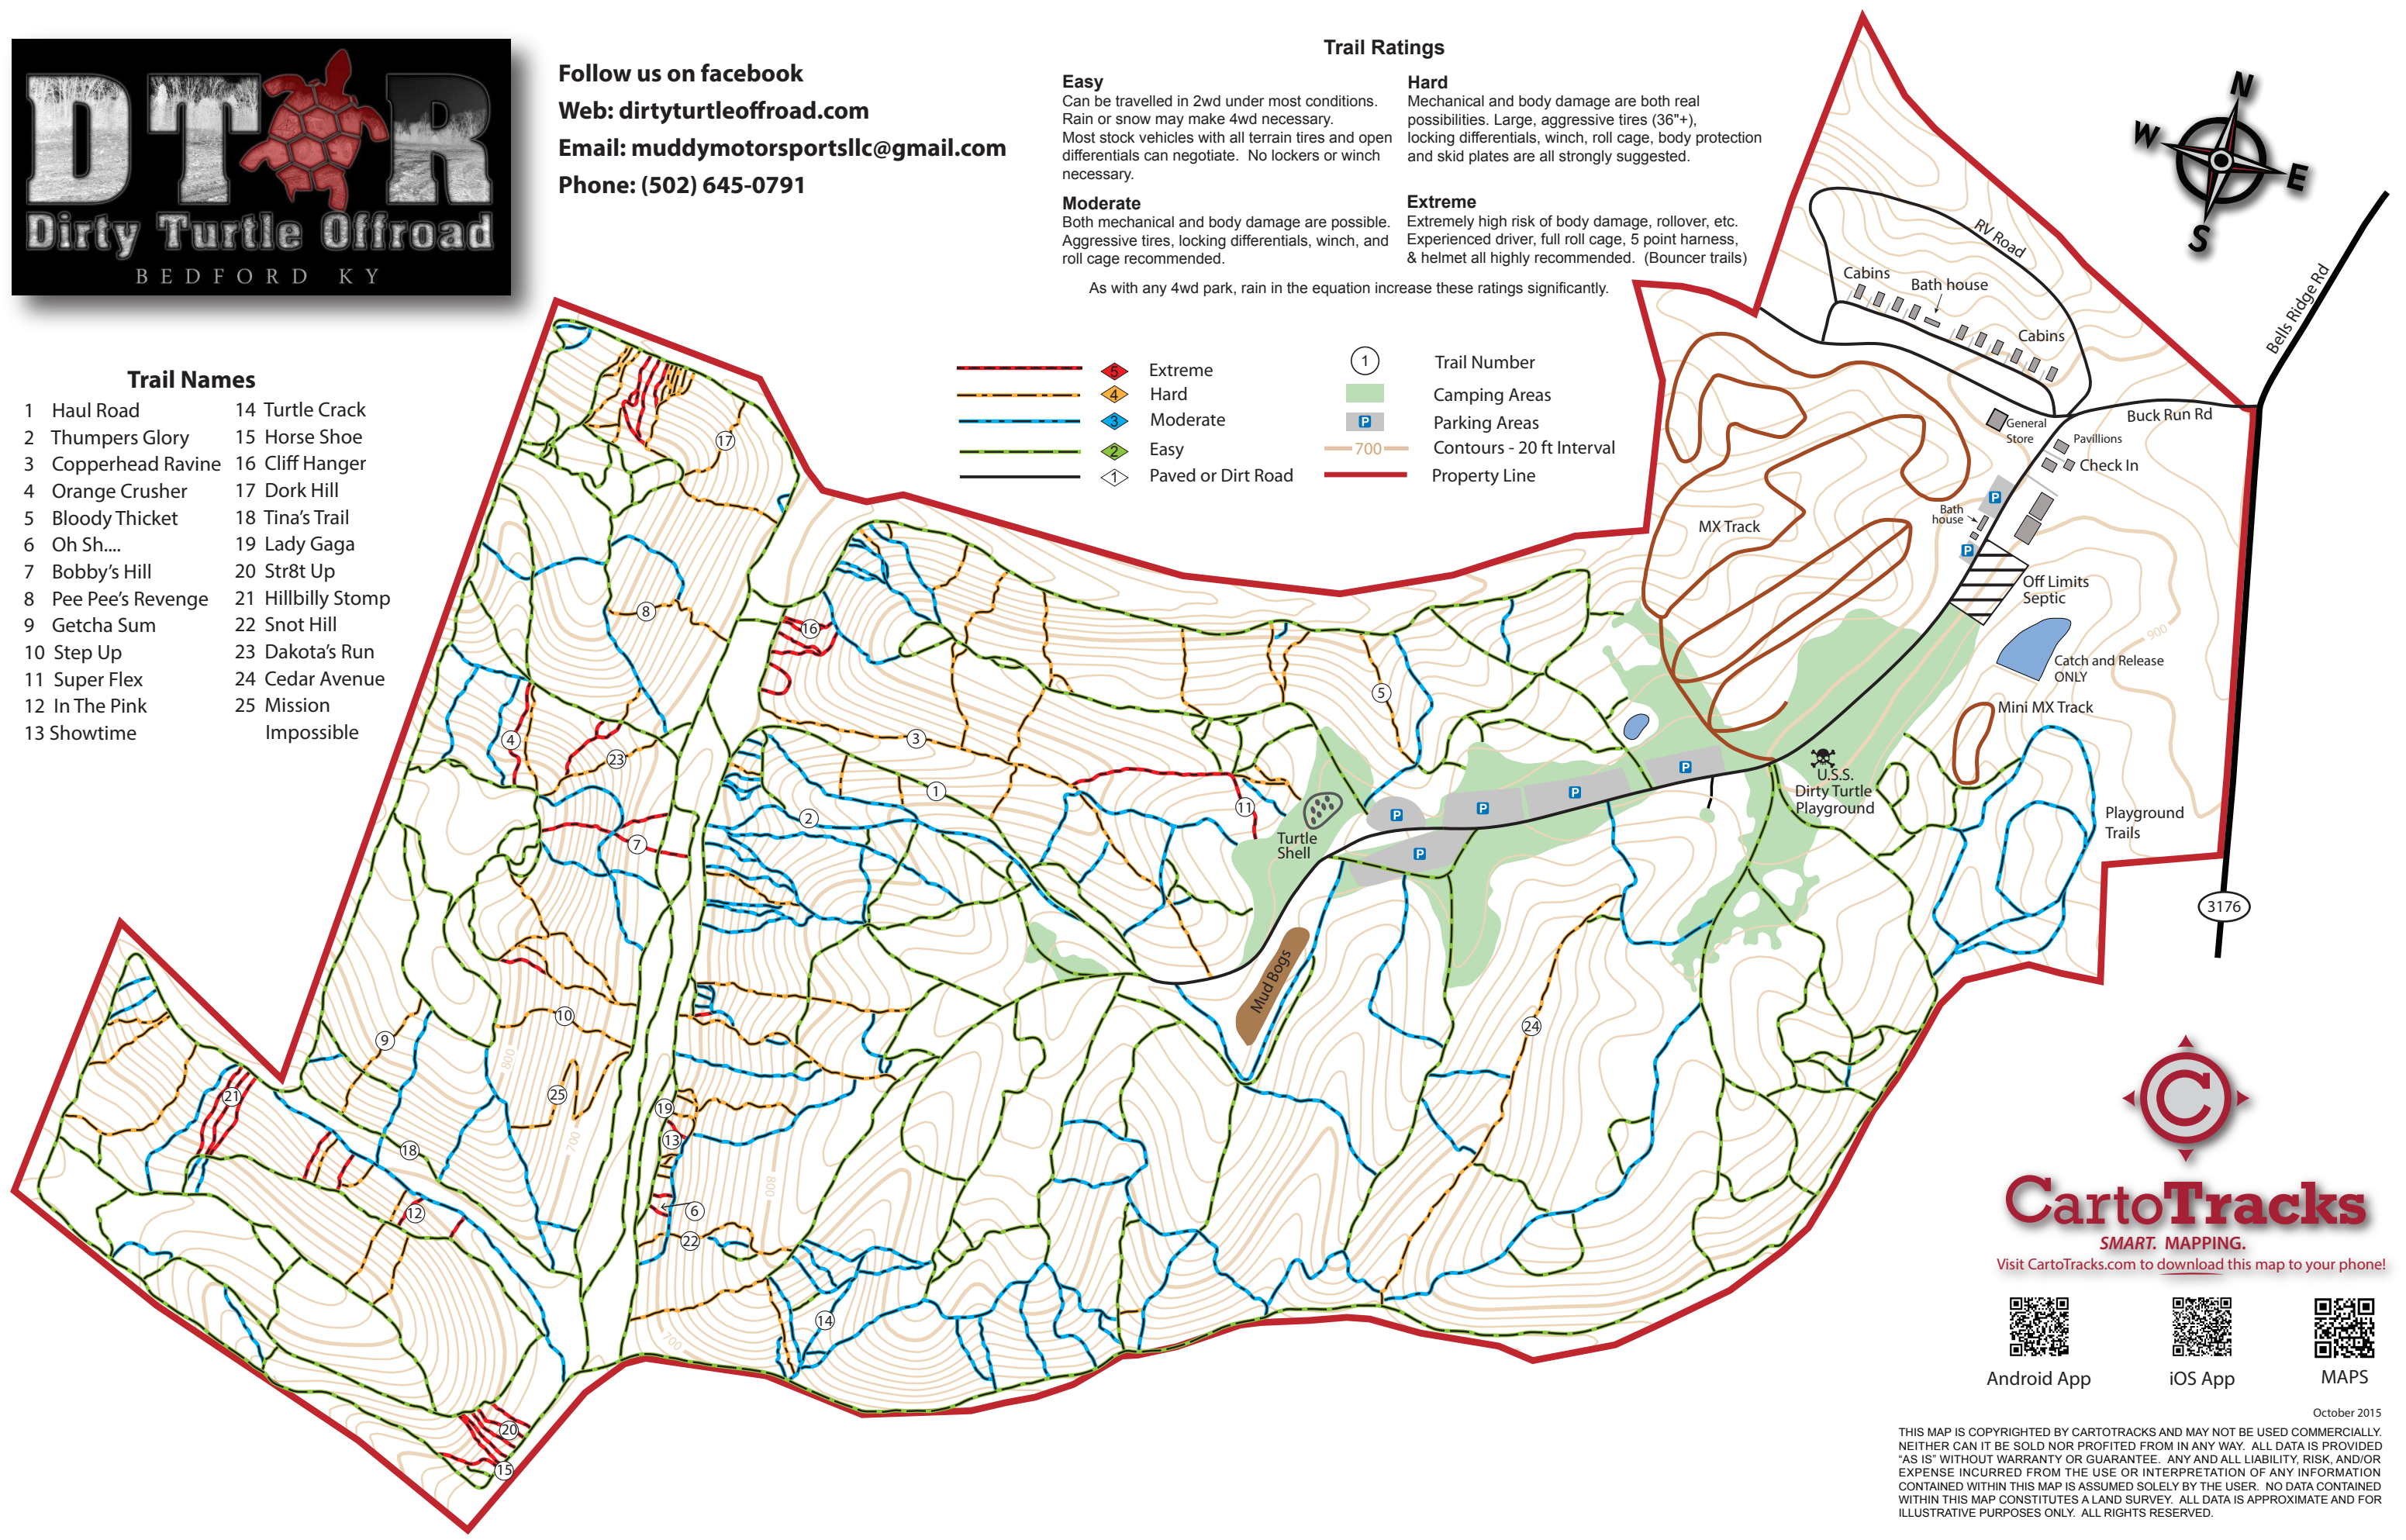

Hard
 Mechanical and body damage are both real possibilities. Large, aggressive tires (36"+), locking differentials, winch, roll cage, body protection and skid plates are all strongly suggested.

Extreme
 Extremely high risk of body damage, rollover, etc. Experienced driver, full roll cage, 5 point harness, & helmet all highly recommended. (Bouncer trails)

As with any 4wd park, rain in the equation increase these ratings significantly.
